SWISS EXCELLENCE FLOWN WITH PASSION

Albinati Aeronautics is a business aviation company founded in 2001 and based in Geneva, Switzerland with additional offices in St. Julian's, Malta and Torino Caselle, Italy. Combining dedicated professionalism with a true passion for flying, we cater to all of your needs with the utmost confidentiality, absolute safety, and exceptional quality, and help you substantially reduce your travel time.

Fuelling a desire for excellence, the family office-like philosophy of Albinati Aeronautics is based on this dedication, devotion and scrupulous attention to detail coupled with solid expertise. These values permeate the entire team.

Our top-flight services reflect our overall approach of cultivating close ties with our customers and meeting their needs.

TEAM SPIRIT

Ours is a 140-strong team made of people capable of working under pressure with calm efficiency and responsiveness, with meticulous attention to detail and focus on absolute safety. We are accustomed to dealing with customers used to the highest standards of comfort and safety. The team works around the clock and our services are available without interruption every day of the year.

- Our pilots are highly skilled experts in their field. Recruited from the elite of military and commercial aviation and trained according to the company's stringent flight control procedures and civil aviation regulations, they are able to fly under the most challenging conditions.
- Our flight attendants have proven their integrity time and time again. They are the very essence of discretion and they fully dedicate themselves to your on-board comfort and safety.
- Our in-house CAMO team (Continuing Airworthiness Management Organisation) is composed of highly qualified engineers who relentlessly work at ensuring that maintenance on our fleet is performed in full compliance with manufacturers' requirements only by manufacturer-approved service centres, and that applicable safety regulations are always met.
- Our in-house Flight Operations Service is a dedicated and proactive team of highly skilled dispatchers who work at planning and preparing our customers' flights. Their vast worldwide experience combined with our ultra-long range fleet and intercontinental activities enable us to fly you in any remote area of the world and as close as possible to your final destination.
- Our Customer Service team is made of people trained in hospitality professions, who have an excellent understanding of the business aviation domain. They work at fulfilling all of your logistics requirements as well as ensuring your utter comfort throughout the journey.

AIRCRAFT MANAGEMENT

Albinati Aeronautics is a dependable partner for all matters relating to business aviation and provides the following services:

- Private or commercial aircraft operations worldwide and passenger logistics
- Full compliance with all applicable civil aviation regulations
- Maintenance supervision on your aircraft, and review, filing and safekeeping of all technical records in compliance with the applicable regulations
- Crew selection, employment and training
- Aircraft insurance
- Transparent accounting
- Customised advice for any aviation-related questions

We work hard to represent and protect the interests entrusted to us. Being free from any constraining partnership with manufacturers and maintenance centres, we guarantee our customers total impartiality and full financial transparency.

SALES AND ACQUISITIONS

Albinati Aeronautics and Jetron are proud to announce their newly created company : JETRON SWITZERLAND SA, fully qualified to guide you through the entire process of aircraft purchasing and selling.

Stefano Albinati, CEO of Albinati Aeronautics, among the largest private operators in Switzerland joins forces with Marian Jancarik, CEO of Jetron, a successful private aircraft brokerage and asset advisory house with 20 years of experience in the market.

INTRODUCING
JETRON
SWITZERLAND

PRIVATE JET ACQUISITION

The comfort of business jet flying should start with its flawless acquisition.

Would you like a spacious cabin or leather seats? Do you prioritize a low total time aircraft or a long range unit? We will find a jet that will suit your needs. And a seller, of course.

Right after our technical team approves the jet's condition, we will take off to the journey of getting the legal work done. All to keep you protected and to save your money on the aircraft.

PRIVATE JET SALE

We go beyond finding a buyer with the highest bid. We run a diligence on prospects to ensure that the overall process will maximize your profit. Your time and energy included.

Rely on our top experts in the areas of aviation, marketing, sales and legal.

We know how to attract relevant prospects and how to sell your aircraft in a way which meets your expectations.

CHARTER ON REQUEST

Our Company holds both a Swiss and a Maltese Operator Certificate and has a comprehensive fleet of over 20 aircraft under management.

Our Charter Sales, Customer Service and Operations teams are available around the clock, every day of the year, to organise and coordinate our customers flights and fulfil their logistical requirements.

We will take you as close as possible to your final destination anywhere in the world.

Phone: +41 22 306 1060 or e-mail: ask@albinati.aero

We are :

- A certified CAT II operator ; this allows greater landing possibilities in adverse weather conditions
- An approved USA Visa Waiver operator - authorised to carry non-immigrant visitors without an entry visa for the US
- A licensed Far Part 129 and Canadian Foreign Air Operator, thus entitled to perform business jet charter services to and from those countries
- Certified to land at London City and Saint-Tropez - La Môle airports

Reservation of leisure or business trips is simple and fast and you can rest assured at all times of complete confidentiality, maximum safety and outstanding quality.

CITATION LATITUDE

GLOBAL 6000

THE ULTRA-LONG RANGE BUSINESS JET

This time-saver can fly thirteen hours non-stop at a high speed, taking up to twelve passengers anywhere in the world in an exclusive, luxurious and comfortable environment.

It is fully equipped for enhanced productivity (satellite-based WiFi), entertainment (Blu-ray/DVD player) and relaxation.

Thanks to its short-field performances, the Global 6000 can use restrictive airports with just 1 500 m long runways, hence increasing the number of possible landing airfields.

As a result, passengers are taken closer to their final destination and their travel time is consistently reduced.

The aft section, separated from the cabin by a sliding door, can be converted into a comfortable suite of one double bed and one single bed with direct access to a private restroom and a closet as well as the baggage compartment.

The mid section offers two single and one double bed accommodation.

Fine dining is served on board by our flight attendant.

FALCON 8X

THE ULTRA-LONG RANGE BUSINESS JET

This time-saver can fly thirteen hours non-stop at a high speed, thus offering more range yet more fuel efficiency than its predecessor.

The aircraft boasts an integrated airframe and outstanding short-field performances (1 200 m) hence increasing the number of possible landing airfields further.

As a result, passengers are taken closer to their final destination and their travel time is consistently reduced.

The aircraft is certified to land at London City airport.

With the longest cabin in the Falcon family, it provides utmost in-flight comfort to up to twelve passengers.

It is extremely quiet, below 50 dBA, thanks to its isolators, and it is equipped for business, entertainment and relaxation with a top-notch cabin management system featuring Ka-Band satellite WiFi internet connectivity allowing entire control over the cabin environment.

The aft section, separated from the cabin by a sliding door, can be converted into a comfortable suite of either one king-size double bed or two single beds with direct access to a private restroom and a closet.

The mid section offers one double and two single beds accommodation.

Fine dining is served on board by our flight attendant.

THE MID-SIZE BUSINESS JET

With its range of over five hours non-stop, this mid-size flat-floor aircraft offers the most spacious and stand-up cabin in the category as well as a very large baggage compartment.

The Citation Latitude is equipped with the ultimate cabin cooling and pressurization technologies to increase the passengers' level of comfort. Its cabin outfit includes satellite-based WiFi and entertainment systems to offer a perfect combination of working and relaxing space for up to eight passengers.

Thanks to its short-field performances, this aircraft is particularly versatile and can use restrictive airports with just 1 100 m long runways, hence substantially increasing the number of possible landing airfields.

As a result, passengers are taken closer to their final destination and their travel time is consistently reduced.

In addition, it is certified to land at London City and Saint-Tropez - La Môle airports, a very attractive feature for business and leisure travellers.

A large refreshment centre is available for hot and cold drinks as well as cold finger-food.

PILATUS PC-24

A CLASS OF ITS OWN

Often described as a Swiss knife, the PC-24 is a must-have in aviation.

The technical capabilities and high versatility of this aircraft have made its reputation as it perfectly combines the comfort and space of a mid-size cabin with exceptional short-field performances.

As a result, passengers are flown closer to their final destination hence their travel time is substantially reduced.

In addition, it is certified to land at Saanen/Gstaad, London City, Saint-Tropez - La Môle and Lugano airports, destinations that are particularly appreciated by our customers.

Capable of accommodating up to six passengers, every component of our PC-24 is chosen to enhance their experience. The flat-floor cabin is made of soft leathers and rare hardwood cabinetry full of exquisite details that create a bespoke and comfortable interior.

The baggage compartment is accessible in flight and can store up to eight golf bags.

No owner's approval is required.

PILATUS PC-12

THE WORLD'S GREATEST SINGLE

"With more than 1 700 PC-12s in the field, and over seven million flight hours behind the ultra-reliable Pratt & Whitney Canada PT6 engine, the PC-12 enjoys a safety record on par with twin-engine business jets."

PC-12 owners, users and operators can only strongly agree with the above statement by Pilatus!

The PC-12 can use sketchy runways as short as 760 meters at its maximum weight. It can serve destinations that business jets cannot reach and it is capable of using unpaved runways (dirt or grass).

The technical capabilities and high versatility of this aircraft have made its reputation as it perfectly combines the comfort and space of a mid-size cabin with exceptional short-field performances.

As a result, passengers are flown as close as ever to their final destination and their travel time is therefore substantially reduced.

In its executive configuration, our PC-12 can accommodate up to six passengers. Its flat-floor cabin is made of soft leathers and carbon cabinetry that create a bespoke and very comfortable interior. Also, the PC-12 is the only single-engine turboprop to provide a pallet-sized cargo door as standard.

No owner's approval is required. Under our Swiss AOC.

PARTNERS

THEODORA FOUNDATION

The Theodora Foundation was created in 1993 on the initiative of brothers André and Jan Poulie, who named the Foundation in memory of their mother Theodora.

The mission: provide moments of laughter and escape for children in hospital or with disabilities. To achieve this, the Foundation finances and organises weekly visits by professional artists, known as Dream Doctors, to hospitals and specialised institutions in Switzerland.

Albinati Aeronautics supports the Theodora Foundation.

DONATE NOW

Scan the QR Code with the Twint app & confirm amount and donation.

TRISTAN SWISS CHOCOLATIER

Albinati Aeronautics & Tristan: a celebration of more than 20 years of successful partnership between good friends and business colleagues; Stefano Albinati, CEO and owner of renowned private jet company Albinati Aeronautics and famous Swiss chocolatier Tristan Carbonatto.

Tristan is an artisanal chocolatier, or as others call him, the chocolate magician. If asked, he would say it is all about passion for the craft of handmade chocolate, the relationships he has with his employees, longstanding and close connections to suppliers and customers – in short, it's all about heart and soul.

Flying high above the skies and eating one of the best chocolates in the world while cruising comfortably at 30.000ft above ground. From the moment you board to our final goodbyes, Albinati Aeronautics is committed to leaving you with lasting and wonderful memories.
