ALBINATI AERONAUTICS

# CHARTER SERVICES

# SWISS EXCELLENCE FLOWN WITH PASSION

Albinati Aeronautics is a business aviation company founded in 2001 and based in Geneva, Switzerland with additional offices in St. Julian's, Malta and Torino-Caselle, Italy. Combining dedicated professionalism with a true passion for flying, we cater to all of your needs with the utmost confidentiality, absolute safety, and exceptional quality, and help you substantially reduce your travel time.

Fuelling a desire for excellence, the family office-like philosophy of Albinati Aeronautics is based on this dedication, devotion and scrupulous attention to detail coupled with solid expertise. These values permeate the entire team. Our top-flight services reflect our overall approach of cultivating close ties with our customers and meeting their needs.

# CHARTER ON REQUEST

Our Company holds both a Swiss and a Maltese Operator Certificate and has a comprehensive fleet of over 20 aircraft under management.

Our Charter Sales, Customer Service and Operations teams are available around the clock, every day of the year, to organise and coordinate any of your flights and fulfil any of your logistics requirements, in direct contact with yourself or your assistants. Should the aircraft that best suits your needs not be available, we will find it thanks to our network of highly selected partners.

We will take you as close as possible to your final destination anywhere in the world. We are:

- a certified CAT II operator; this allows greater landing possibilities in adverse weather conditions;
- an approved USA Visa Waiver operator - authorised to carry non-immigrant visitors without an entry visa for the US;
- a licensed Far Part 129 and Canadian Foreign Air Operator, thus entitled to perform business jet charter services to and from those countries;
- certified to land at London City and Saint-Tropez - La Môle airports.

Reservation of leisure or business trips is simple and fast and you can rest assured at all times of complete confidentiality, maximum safety and outstanding quality.

## GLOBAL 6000

### The ultra-long range business jet

With the largest cabin in its category, this aircraft can fly thirteen hours non-stop at a high speed, taking up to twelve passengers anywhere in the world in an exclusive, luxurious and comfortable environment.

It is fully equipped for enhanced productivity (satellite-based WiFi), entertainment (Blu-ray/DVD player) and relaxation.

Thanks to its short-field performances, the Global 6000 can use restrictive airports with just 1500 m long runways, hence increasing the number of possible landing airfields.

As a result, passengers are taken closer to their final destination and their travel time is consistently reduced.

The aft section, separated from the cabin by a sliding door, can be converted into a comfortable suite of one double bed and one single bed with direct access to a private restroom and a closet as well as the baggage compartment.

The mid section offers two single and one double bed accommodation.

Fine dining is served on board by our flight attendant.

## GLOBAL XRS

### The ultra-long range business jet

This time-saver can fly thirteen hours non-stop at a high speed, taking up to ten passengers anywhere in the world in an exclusive, luxurious and comfortable environment.

It is fully equipped for enhanced productivity (satellite-based WiFi), entertainment (Blu-ray/DVD player) and relaxation.

Thanks to its short-field performances, the Globa XRS can use restrictive airports with just 1500 m long runways, hence increasing the number of possible landing places.

As a result, passengers are taken closer to their final destination and their travel time is consistently reduced.

The aft section, separated from the cabin by a sliding door, is designed as a relaxing room equipped with individual beds which can easily be converted into a comfortable king size double bed suite with a direct access to a private restroom and a closet as well as the baggage compartment.

The mid section offers two single and one double bed accommodation.

Fine dining is served on board by our flight attendant.

## GLOBAL EXPRESS

### **The ultra-long range business jet**

This time-saver can fly thirteen hours non-stop at high speed, taking up to fourteen passengers anywhere in the world in an exclusive, luxurious and comfortable environment, fully equipped for business (integrated communication systems), entertainment (Blu-ray/DVD player) and relaxation.

Thanks to its short-field performances, the Global Express can use restrictive airports with just 1 500 m long runways and thus brings passengers closest to their final destination and their travel time is consistently reduced.

The aft section, separated from the cabin by a sliding door, can be converted into a comfortable suite of one double bed and one single bed with direct access to a private restroom and a closet as well as the baggage compartment.

The mid section offers four single beds accommodation.

Fine dining is served on board by our flight attendant.

## GLOBAL 5000

### The super large business jet

This large cabin aircraft can fly eleven hours non-stop, taking up to twelve passengers anywhere in the world in an exclusive, luxurious and comfortable environment.

It is fully equipped for business (integrated communication systems), entertainment (Blu-ray/DVD player) and relaxation.

Thanks to its short-field performances, the Global 5000 with extended range can use restrictive airports with just 1500 m long runways, hence increasing the number of possible landing airfields.

As a result, passengers are taken closer to their final destination and their travel time is consistently reduced.

The aft section, separated from the cabin by a sliding door, can be converted into a comfortable king size double bed suite with a direct access to a private restroom and a closet as well as the baggage compartment. The mid section offers two single and one double bed accommodation.

## FALCON 8X

### The ultra-long range business jet

This time-saver can fly thirteen hours non-stop at a high speed, thus offering more range yet more fuel efficiency than its predecessor.

The aircraft boasts an integrated airframe and outstanding short-field performances (1 200 m) hence even more increasing the number of possible landing airfields. As a result, passengers are taken closer to their final destination and their travel time is consistently reduced. The aircraft is certified to land at London City airport.

With the longest cabin in the Falcon family, it provides utmost in-flight comfort to up to twelve passengers.

It is extremely quiet, below 50 dBA, thanks to its isolators, and it is equipped for business, entertainment and relaxation with a top-notch cabin management system featuring Ka-Band satellite WiFi internet connectivity allowing entire control over the cabin environment.

The aft section, separated from the cabin by a sliding door, can be converted into a comfortable suite of either one king-size double bed or two single beds with direct access to a private restroom and a closet.

The mid section offers one double and two single beds accommodation.

Fine dining is served on board by our flight attendant.

## CHALLENGER 604

### The large business jet

With its range of eight hours non-stop, this competitive large aircraft offers a spacious cabin that perfectly combines working, dining and relaxing spaces for up to twelve passengers.

It is fully equipped for business (integrated communication systems), entertainment (Blu-ray/DVD player) and its wide baggage compartment is accessible in flight.

It performs equally well on short and long-distance trips.

Thanks to its short-field performances, the Challenger 604 can use restrictive airports with just 1 500 m long runways, hence increasing the number of possible landing airfields.

As a result, passengers are taken closer to their final destination and their travel time is consistently reduced.

The sleeping configuration offers three single and one double bed accommodation.

Fine dining is served on board by our flight attendant.

## CITATION LATITUDE

### The mid-size business jet

With its range of over five hours non-stop, this mid-size flat-floor aircraft offers the most spacious and stand-up cabin in the category as well as a very large baggage compartment.

The Citation Latitude is equipped with the ultimate cabin cooling and pressurization technologies to increase the passengers' level of comfort.

Its cabin outfit includes satellite-based WiFi and entertainment systems to offer a perfect combination of working and relaxing space for up to eight passengers.

Thanks to its short-field performances, this aircraft is particularly versatile and can use restrictive airports with just 1 100 m long runways, hence substantially increasing the number of possible landing airfields.

As a result, passengers are taken closer to their final destination and their travel time is consistently reduced.

In addition, it is certified to land at London City and Saint-Tropez - La Môle airports, a very attractive feature for business and leisure travellers.

A large refreshment centre is available for hot and cold drinks as well as cold finger-food.

## PILATUS PC-24

### A class of its own

Often described as a Swiss knife, the PC-24 is a must-have in aviation.

The technical capabilities and high versatility of this aircraft have made its reputation as it perfectly combines the comfort and space of a mid-size cabin with exceptional short-field performances.

As a result, passengers are flown closer to their final destination hence their travel time is substantially reduced.

In addition, it is certified to land at Saanen/Gstaad, London City, Saint-Tropez - La Môle and Lugano airports, destinations that are particularly appreciated by our customers.

Capable of accommodating up to eight passengers, every component of our PC-24 is chosen to enhance their experience. The flat-floor cabin is made of soft leathers and rare hardwood cabinetry full of exquisite details that create a bespoke and comfortable interior.

The baggage compartment is accessible in flight and can store up to eight golf bags.

No owner's approval is required.

## TEAM SPIRIT

Ours is a 130-strong team made of people capable of working under pressure with calm efficiency and responsiveness, with meticulous attention to detail and focus on absolute safety. We are accustomed to dealing with customers used to the highest standards of comfort and safety. The team works around the clock and our services are available without interruption every day of the year.

- Our pilots are highly skilled experts in their field. Recruited from the elite of military and commercial aviation and trained according to the company's stringent flight control procedures and civil aviation regulations, they are able to fly under the most challenging conditions.
- Our flight attendants have proven their integrity time and time again. They are the very essence of discretion and they fully dedicate themselves to your on-board comfort and safety.
- Our in-house CAMO team (Continuing Airworthiness Management Organisation) is composed of highly qualified engineers who relentlessly work at ensuring that maintenance on our fleet is performed in full compliance with manufacturers' requirements only by manufacturer-approved service centers, and that applicable safety regulations are always met.
- Our in-house Flight Operations Service is a dedicated and proactive team of highly skilled dispatchers who work at planning and preparing our customers' flights. Their vast worldwide experience combined with our ultra-long range fleet and intercontinental activities enable us to fly you in any remote area of the world and as close as possible to your final destination.
- Our Customer Service team is made of people trained in hospitality professions, who have an excellent understanding of the business aviation domain. They work at fulfilling all of your logistics requirements as well as ensuring your utter comfort throughout the journey.
